PROFILE

Software Engineer with experience supporting and deploying Java-based backend systems in production. Strong foundation in Java, Spring Boot, and REST APIs, with hands-on exposure to AWS, Docker, Kubernetes, and CI/CD pipelines through enterprise environments.

EDUCATION

Saint Louis University, Saint Louis, MO

Dec 2025

Master of Science in Information Systems

Scaler Academy

Backend Java Development, Data Structures and Algorithms, System Design

Sreenivasa Institute of Technology and Management Studies, Chittoor, India

April 2019

Bachelor of Technology in Mechanical Engineering

TECHNICAL SKILLS

- **Languages:** Java, SQL
- **Frameworks & Libraries:** Spring Boot (Spring MVC, Spring Data JPA)
- **Application Development:** OOP, Low-Level Design (LLD), SOLID Principles, Design Patterns, REST API Design, Exception Handling, Data Modeling, Java Collections, Streams, Concurrency
- **Cloud:** AWS (EC2, EBS, S3, EKS, KMS Keys, IAM, API Gateway)
- **DevOps & CI/CD:** Docker, Jenkins, GitLab CI/CD, Shell scripting, Helm
- **Messaging and Caching:** Kafka, Redis
- **Tools:** GitHub, GitLab, MySQL, Adobe Experience Manager (AEM)

WORK EXPERIENCE

Genpact India Pvt Ltd. (Client: GE Healthcare)

May 2022 - Dec 2023

Cloud Engineer

Bangalore, India

- Supported deployment and release of Java-based, containerized microservices on AWS EKS across development, testing, and production environments
- Built and maintained CI/CD pipelines using GitLab and Jenkins to automate Docker image builds and Helm-based deployments
- Managed deployment artifacts by publishing Docker images to Amazon ECR and Helm charts to Amazon S3
- Investigated deployment and runtime issues by reviewing Kubernetes pod status and application logs, coordinating fixes with backend teams
- Worked closely with Java backend, DevOps, and SRE teams during release cycles and production rollouts
- Supported applications running across multiple AWS accounts, ensuring consistent deployments across environments

Vineeth Golla

github.com/VineethGolla | linkedin.com/in/vineeth-golla | vineethgolla1@gmail.com

HCL Technologies Ltd. (Client: Adobe Inc.)

March 2020 - May 2022

Software Engineer

Vijayawada, India

- Supported enterprise-scale applications built on Adobe Experience Manager (AEM) with integrations to Java backend services
- Assisted in the migration of AEM applications from version 6.3 to 6.5, including deployment support and post-release validation
- Coordinated application deployments and releases across multiple environments
- Participated in production issue triage by analyzing logs and validating backend API responses
- Worked in Agile/Scrum teams, tracking defects, incidents, and releases using Jira

Backend & Design Projects (Java): GitHub - github.com/VineethGolla

- Designed and implemented multiple Low-Level Design (LLD) solutions in Java, focusing on clean object modeling and SOLID principles
- Built Spring Boot backend services, including User, Product, and Payment services
- Designed REST APIs using layered architecture (controller, service, repository)
- Implemented authentication and authorization using JWT and BCrypt
- Containerized backend services using Docker (Dockerfile - based builds)
- Deployed containerized services on AWS, validating application startup and API functionality
- Built REST APIs with centralized exception handling and standardized responses
- Packaged services as executable JARs using Maven

CERTIFICATIONS & LEARNING

- 2020: Adobe Certified Expert - Adobe Experience Manager Business Practitioner
